The nail polish swatch strip!

Application

Select strip from blotter

Place strip on nail

Swatch nail polish on strip

Pull off strip and repeat

Your benefits

High Service Level

Increase in sales

Cost efficiency

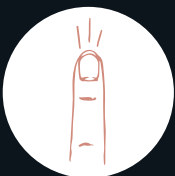

Learned handling

Benefits for consumers

True colour effect

Apply nail colour of choice onto strip regardless of design. The color, intensity and texture of the nail polish will appear as it would on a natural nail.

Traceless Removal

After testing nail color simply peel off strip; no glue, no unsightly residue will be left on the nail and surrounding cuticle.

Hygienic

Shape and size of strip protects nail design and surrounding skin from unwanted running color, discoloration and smudges.

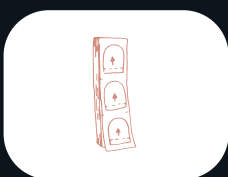

Eco-friendly

Strips are made from certified food safe glue and plastics which pose no risk to users and the environment.
